lady feels safe and enjoys the dancing. As a follower you will feel safe in his strong arms. Willem's energy is endless, his goal is to dance with every lady on the dance floor.

Willem's love for Brasil started in 1999 with capioera. Shortly thereafter he discovered Brazilian Zouk. The sweeping hairmovements combined with the flowing body movements is what fascinated him, so he decided to devote his life to this dance. Since 2004 he teaches dance classes in Brazilian Zouk.

Willem's analytical skills are highly developed so as a teacher he can easily observe and give feedback to help you improve your dancing. In his lessons the technique of the ladies as well as the technique of the gentlemen are important. But most important of all is a relax atmosphere and enjoying the movement!

Beside teaching Willem works worldwide as a artist at festivals and congresses (Australia, New Zealand, Japan, VS, Canada, Brazil, Argentina, Suriname, Tsjechie, Germany, Greece, Spain and England). He experienced dance in many ways and wants to share this with you!

Kristine "Xtine" Krosi

Kristine Krosi has over 25 years of experience in ballet and jazz, and over 10 years in partner dance, hip hop, modern, musical theater, and tap. She uses a multi-disciplinary study of dance and movement to create new and exciting choreographies, courses and dance conversations. She founded the Brazilian zouk community and built a thriving multi-tiered dance academy within four years in Seattle, WA. She also established the first and largest Brazilian zouk dance convention in the Pacific Northwest.

Kristine is also the holder of a psychology degree, and specialized in animal behavior and communication. She brings her understanding of posturing and body language into her approach and seeks to link her student's understanding of movement with their psychology. An additional element she brings to the table is her independent studies in chakra power centres and the ways in which we physically display our the wounds of our psyche. She has the goal of bringing awareness and change not only into people's physicality, but also in how they clear blockages in their mindset to heal their body. Kristine is an internationally recognized artist who has shared her knowledge in the USA, Canada, Netherlands, UK, Latvia, Sweden, Mexico, Japan, Korea, Singapore, Thailand, Iceland and Lithuania.
